

2.7.4 Provides instruction for all course work required for at least one degree program at each level at which it awards degrees. If the institution does not provide instruction for all such course work and (1) makes arrangements for some instruction to be provided by other accredited institutions or entities through contracts or consortia or (2) uses some other alternative approach to meeting this requirement, the alternative approach must be approved by the Commission on Colleges. In both cases, the institution demonstrates that it controls all aspects of its educational program.

(Coursework for Degrees)

Compliance Status: Compliance

The College of Coastal Georgia controls every aspect of its educational programs; it offers all coursework for all of its associate and baccalaureate degree programs. There are no active consortia agreements for the delivery of coursework for degrees. All degrees have final approval through the USG Board of Regents.
